and ends. The CPX-2 performed perfectly well with everything except the Remington ammo. At least once in each magazine-full, when I pulled the trigger, there was a “click” instead of a “bang.” Fortunately, this pistol has second-strike/multiple-strike capability, and the round would indeed fire on the second strike. It turns out, according to the people at SCCY Industries, Remington tends to use a harder primer on its 9mms. Everything else worked just fine, with no failures to fire, or failures to chamber or extract.

Accuracy was quite decent. I was firing at 10 yards, and I found that I could get better groups offhand than I could from a sandbag rest. The abovementioned nine-pound double-action trigger pull is quite manageable, and most amenable to rapid-fire drills.

Oh, one other thing: loading the magazine may require fingers of steel, or at least a sturdy mag-loading tool. The magazine has a very strong spring, indeed. You can load ten rounds and let the magazine sit fully loaded for a couple of weeks, and this will loosen up the spring a bit. But if you don’t want to sit around waiting, I strongly recommend the purchase of an UpLULA™ magazine loader, which is God’s Gift to people opposed to unnecessary exertion.

Takedown for cleaning couldn’t be easier. Pull back the slide, remove the magazine, pop out the disassembly pin with either a small screwdriver or the rim of an empty cartridge case, and pull the slide off the frame. Then, the recoil spring sub-assembly and barrel can be lifted right out.

All told, this is a simple, dependable compact firearm that won’t break the bank. It comes with a lifetime warranty that stays with the gun, not with the owner. I think it’s a hell of a bargain, and a keeper.

A Winner for the NRA Board: STEVE SCHREINER

Why vote for Steve Schreiner?

Schreiner is a Vietnam Vet, Airborne Ranger; awarded CIB, Bronze Star with V Device and Silver Star.

He is a noted supporter of the Second Amendment as exemplified by the following:

1. President, Firearms Coalition of Colorado;
2. Awarded NRA’s Best Volunteer Organization of the Year;
3. Successfully Fought for Colorado’s CCW;
4. Highly Successful Registered Lobbyist at Colorado Legislature;
5. Fought against semi-auto ban, magazine bans and “safe storage” bills;
6. Member of NRA’s Grassroots Committee.

What I stand for:

1. We need to reach out to everyone, especially the younger generation, using their means of accessing information, about the positive aspects of the National Rifle Association and the Second Amendment;
2. We need more emphasis on range development and protection of existing ranges;
3. We need to protect our shooting rights in National Forests and on other Federal lands.

Steve Schreiner
President, Firearms Coalition of Colorado

“Vote for Silver Star Recipient Steve Schreiner for NRA Board of Directors. I am encouraging NRA Board of Directors voters to utilize the ‘bullet ballot’ procedure. If you vote just for Schreiner, you increase his chances of being elected.” – Lt. Col. Robert K. Brown, USA Ret.

*Bullet balloting does not increase the number of votes cast for Schreiner but it does reduce the number of votes the other candidates receive which, therefore, increases the likelihood of Schreiner’s election.
